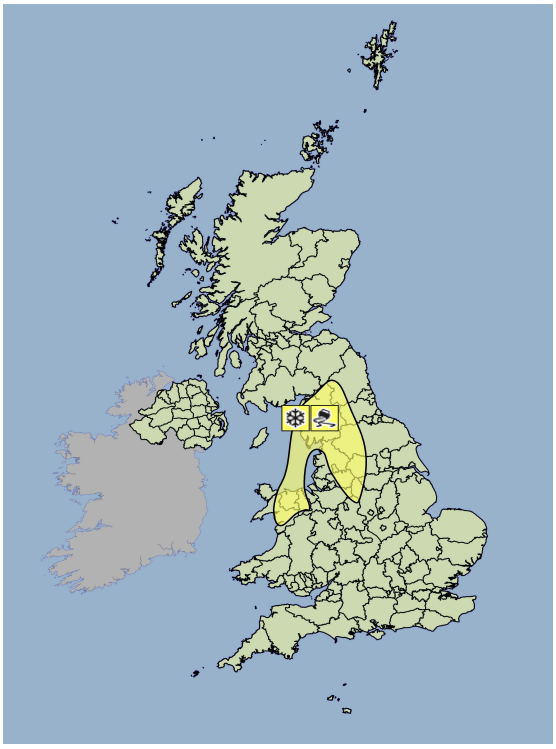
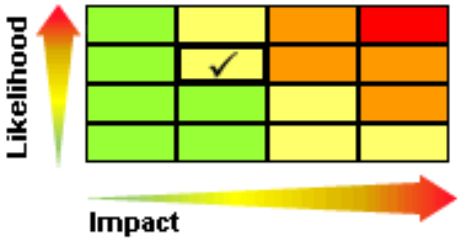
National Severe Weather Warning Service





Chief Forecasters Assessment
A weather front will move eastwards on Monday afternoon and evening bringing rain to much of the north and west. The rain is expected to fall as snow above 200-300m for a time on Monday, but will turn back to rain by the early hours of Tuesday morning.

The Met Office have issued a **Yellow Warning** of **Snow and Ice**

Valid from **17:00 on Mon, 29th Feb 2016** until **22:00 on Mon, 29th Feb 2016**

Rain, spreading from the west, will fall as snow above 200-300m for a time on Monday evening, giving a risk of temporary snowfall accumulations of 1 to 2cm and perhaps up to 5cm over high ground above 400m.

There will also be a risk of patchy ice where rain, sleet and snow fall on frozen surfaces.

Be aware that some localised travel disruption is likely, mainly over high level routes of north Wales and northern England.
